

To Achieve Faster Compliance Test Throughput for Multi-lane Standards

Allion is proud to announce the exclusive debut of our USB4® Electrical Test Automation Solution at **Computex 2023**

Shorten Projects Schedule and Faster Turnaround Time

Allion developed USB4® Electrical Test Automation Solution which is qualified by USB Implementers Forum (USB-IF) to enhance USB4® electrical compliance test throughput for multi-lane standards.

Taking place at our booth. Be the first to experience this groundbreaking technology!

Experience the Unparalleled Excitement of Computex 2023 Taiwan's Largest Technology Expo!

Date: 5/30(Tue)-6/2(Fri) | 09:30-17:30
 Location: Taipei Nangang Exhibition Hall Center, Hall 1
 Booth Number: Allion with USB-IF | Hall 1 4F #M1319
 Allion with SD Association | Hall 1 1F #I0528

Discovery of Comprehensive USB Solutions to Meet All Your Needs

Visit Allion with USB-IF at Hall 1, 4F #M1319

USB-IF Compliance Program

Product

- Silicon Building Block
- Hub/Compound Device
- Hub/Compound Device(Docking)
- Connector
- Peripheral (Device)
- Cable Assemblies
- Power Brick
- DRD (Dual-role Data)

USB4® Electrical Test Automation Solution

Shorten projects schedule and faster turnaround time

- USB Type-C® Certification
- USB-IF Certified Test Fixture
- USB Cable & Connector Validation Service
- USB Signal Integrity Validation
- USB Interoperability Test

USB4® and USB Type-C® are registered trademarks of USB Implementers Forum
